Providing software solutions to the sugar industry for more than 30 years

Cane Cloud

Cane Cloud is a web based reporting system for growers and harvesters. It allows tracking and confirmation of individual deliveries, monitors farm performance, all updated throughout the day. Cane Cloud is hosted on Mirrabooka's VPS.
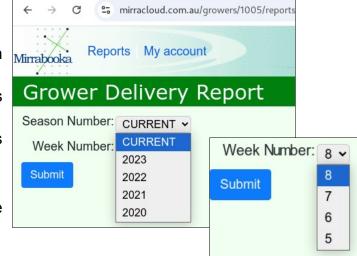

Features

- Web-based system, runs in any modern browser

- Reports viewed in browser or download as PDF or XLS files

- Historical delivery data from past seasons available for reporting

- Easy to extend and add targeted reporting

- Regular updates, including feature improvements and security enhancements

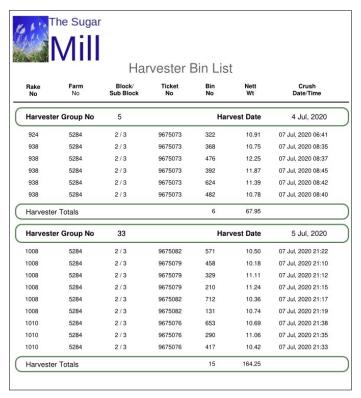

User Access

- Administration – add new users, password resets and switching to any other user for support or troubleshooting

- Grower – extensive report available for current and previous season

- Harvester – listing the latest individual deliveries details
